****Please note that some of the following questions have been asked in the admissions form, however, you can expand/elaborate on those answers or make sure that this information is gathered during the interview process. A copy of the policy booklet has been sent to applicant; they might have specific questions about our requirements.**

I.

- History of personal analysis/psychotherapy
- Prior analytic training
- Type of degree
- Clinical experience
- Experience with supervision

- II. Please provide your impressions of the applicant. It will be important for us to know why the applicant believes they want to pursue training; their degree of motivation and their understanding of what training will require [For the advanced program 450 hours of personal analysis of which 150 hours are in 3X per week modality. Three controls (78, 78, and 52 hours). The need to remain in supervision until the final paper is completed]. For the one-year program there is a requirement of 20 hours of supervision. **[The child and adolescent candidates will continue to be interviewed by the director of that program Jodi Kosofsky and she will provide them with the information regarding that program].**
- III. Do you feel that this candidate might benefit from extra attention/mentoring? If the candidate is entering the program with limited clinical experience or is from a non-mental health field, it might be important for us to determine future needs. The candidate might benefit from the “Prologue to Training Program”.
- IV. Overall recommendation for admission

Please verify that the applicant has submitted a copy of their original graduate transcript, either electronically or by regular mail; a copy of their CV and a copy of their credentials. If this has not taken place, please let them know that an offer of admissions can't be extended until NJI has that documentation.
