

Distance Learning

NJI provides live, fully interactive courses via Zoom. Due to our synchronous audio and visual input, class discussion and class participation take place in “real time”.

Our classes are small which allows all participants to get to know each other and benefit from the instructor’s individual attention.

Candidates are able to meet with their classmates and faculty at many in-person events organized throughout the year. Instructors are available via zoom, phone, email or in-person if need be.

NJI aims to provide a virtual learning experience that is equal to an in-person learning experience.

NJI relies on the use of the internet for the delivery of its courses and as such NJI has a Zoom support team that assures that our equipment and methodology are updated to the latest requirements.

The basic technical requirements for our students include a computer, internet connection of sufficient bandwidth for video without buffering, a webcam, headphones with microphone, and a cell phone.

All or candidates are made aware of the system requirements (see below) prior to registration.

System requirements: • Operating Systems: Windows XP or higher, MacOS 9 or higher, Android 4.0 or higher • Internet Browser: Internet Explorer 9.0 or higher, Google Chrome, Firefox 10.0 or higher • Broadband Internet connection: Cable, High-speed DSL & any other medium that is internet accessible.
